Department of Health Services Children's Medical Services Network (CMS Net) - Information Bulletin # 57

The following is a list of facilities that have been approved by the CMS Branch to temporarily remain on the CMS Net Legacy system:

- UCLA
- Children's Hospital Orange
- Children's Hospital San Diego (Children's Specialist of San Diego)
- UC Davis
- Children's Hospital Los Angeles (USC Cardiothoracic Surgeons)
- Children's Hospital Oakland
- UC San Francisco and Children's Hospital (UCSF Medical Group)
- California Pacific Medical Center
- Lucille Packard Children's Hospital and Stanford
- Children's Hospital Central California (Specialty Medical Group, Sequoia Pediatric Orthopedic Medical Group, Pediatric Pathology Medical Group)
- Miller Children's Hospital
- Loma Linda University Medical Center
- Loma Linda University Children's Hospital
- Loma Linda University Health Care
- Long Beach Memorial Medical Center

As these facilities are temporarily staying on the Legacy system, the physicians groups (noted in parenthesis) who are seeing the children hospitalized there are also requesting to stay on the Legacy system. If there are questions about this list, please contact your Regional Office Administrative Consultant.

Also, please refer to CCS Numbered Letter 04-0604 CCS E47 System Temporary Dual Procedure for additional instructions regarding issuing authorizations.

During Monday's conference call, it was mentioned that Hospital Non-Contract numbers were not available to issue authorizations to CCS Only and CCS/HF clients. This issue has been corrected and these numbers are now available in the CMS Net Web and should be used to issue authorizations.

The CMS Net help desk is available to answer questions regarding the use of the CMS Net Web application, navigation and technical systems questions. However, if the question is policy or procedure related, please contact your county manager or Regional Office Administrative Consultant for clarification. Please consider this before making a call to the help desk for assistance.

Thank you.
